NEED TO BE TRIMMED.

Realty Men Call Attention To Condition of Shade Trees.

The Salt Lake Real Estate association, through J. L. Perkes, secretary, has decided to call the attention of the park commissioners to the need of having the city's many beautiful shade trees trimmed. The trees have long been neglected and drooping branches have been the source of considerable complaint from realty owners and tourists.

The matter of having more attention devoted to the shade trees will be taken up by the realty men in their next meeting and a campaign will be begun to have this important feature of the city's streets given the proper care in the future.

If any woman doubts this statement let her make a point of asking a friend in whom she may confide, a man friend or relative. If he be honest he will tell her that foul breath from the mouth of a woman will drive men from her more rapidly than any other personal affliction.

Foul breath arouses in man disgust, and where this quality is brought into play no amount of self-denial or reasoning can overcome the natural repugnance which comes to a man when he is in company with such a woman.

Fortunate that Salt Lake may boast of having a furniture concern that represents the newest, the best, the most advanced ideas in home furnishings ---it's a reputation we have fairly gained and maintained.

The accompanying design certainly suggests the "Electrolier." This is the prettiest electric lamp on the market. Just the thing for the library, the dining room or the banquet hall. It is not only exquisitely beautiful, but is throughout practical. Comes in the dome, or hanging lamp, and stand. Can be adjusted to every useful position on desk and table.
